

PEAKY DUCK

WHITEPAPER

THE DREAM

Ultimately, Peaky Duck was born to be and exists solely as a memecoin.

The crowning achievement of any memecoin though, is being able to develop a native ledger and complete a CEX listing.

So quite simply, that is our goal.

The Peaky Duck team will work tirelessly to achieve this dream whilst providing our early investors manifold rewards for holding \$SPEAKYDUCK.

TOKENOMICS

12% Tax

2% \$BUSD Reflections - All holders deserve to be rewarded for parking their capital in Peaky Duck, so we have decided to issue a 2% reflection in \$BUSD

3% Auto LP - We believe that any long term project requires price stability. Despite a higher starting LP than most projects, we will require a 3% LP tax

7% Marketing & Development - To achieve the things on our roadmap and more, we require developmental funds. On a lean revenue stream of 7% tax, we believe we can make it work.

THE ROADMAP
